### **Discontinuation MD 5 -series**

Iserlohn, 21.04.2021

Dear Madam or Sir,

Today we need to inform you that the underlying standards are no longer harmonized for our product lines MD 5 bushings according to the Directive 2014/34/EU. Therefore we no longer can declare the conformity.

Spare parts, still being on stock, are NOT affected.

We certainly will be glad to advice if you would like to substitute by one of our alternative products series. Please feel free to contact us.

We are looking forward to a continuing and prosperous cooperation and are available to answer your questions at any time.

Best regards,

Britta Peters  
- Managing Director -
